

Nature Journal

Recording what you see in nature helps you learn more about it.

The sheets in this book are easy for you to use to record what you see in nature. They are made to help you learn more about what you see in nature. You can use them to record what you see in nature.

What is a Nature Journal?

A nature journal is a book where you record what you see in nature. You can use it to record what you see in nature.

Here's how to make your Nature Journal!

1

Choose a notebook or journal that you like to use. You can use a notebook or journal that you like to use.

2

Write down what you see in nature. You can use a notebook or journal that you like to use.

3

Draw pictures of what you see in nature. You can use a notebook or journal that you like to use.

- Draw a picture of a bird
- Draw a picture of a tree
- Draw a picture of a flower
- Draw a picture of a leaf
- Draw a picture of a butterfly
- Draw a picture of a squirrel

4

Write down what you see in nature. You can use a notebook or journal that you like to use.

- Write down what you see in nature
- Write down what you hear in nature
- Write down what you smell in nature
- Write down what you feel in nature

5

Nature is everywhere so keep your eyes open!

Look for nature everywhere. You can use a notebook or journal that you like to use.

Look for nature everywhere. You can use a notebook or journal that you like to use.

Why not draw what you see? Try to draw what you see in nature.
