

# Mount Messages

This activity is all about creating your own positive message for Fleetwood

During Fleetwood's development, the Mount & Pavilion were very important. They were part of a new navigation system, designed by Captain Henry Mangles Denham, sending messages to ships using lights, landmarks & signals

## Did you know???

The Wyre Light Lighthouse was the first screwpile lighthouse in the country

## Here's how to make your own Mount Message:

1

First think of a positive message that might brighten up someone's day. Your message could be:

- For someone your age, older or younger
- To cheer up someone feeling sad
- To make someone laugh
- To suggest a fun activity or walk
- Sharing something that helps you feel better
- Or anything you think might help someone feel good

2

When you've thought of your message it's time to get creative! There are lots of fun ways to make your message, here are a few ideas you might like to try:

- Draw or paint your message on paper
- Write it in pebbles on the beach
- Write in objects you have at home; pens, pencils, shoes, pasta etc.
- Record an audio message
- Write a poem or joke
- Draw a cartoon or picture
- Collage letters & words from old magazines, newspapers etc.
- Write it in the sand
- Write it in chalk on the pavement

3

You could put your message in your window at home, leave it on a bench, send it to a friend or neighbour, take a photo of your message and text it to a friend, post it

Why not share what you make? Tag us into your social media posts using @wyrecouncil

This is from a series of activities for the Science and Discovery Club at Fleetwood Mount.

Don't forget to complete the other badges to claim your certificate!
