Dear Planning Policy Team

Thank you for consulting sport England on the partial review of the Wyre Local Plan (2011 – 2031). With regards to the schedule of revisions to the Wyre Local Plan as contained within the publication draft dated November 2021, we would like to make the following comments

Chapter 5: Strategic Policies Paragraph 5.4.3

It is welcomed that there are no alterations proposed to the land in Fleetwood (which currently comprises school playing fields) and that the Local Plan continues to show this land as green infrastructure.

Chapter 6: Core Development Management Policies Paragraph 6.4.3 With regards to the Council's commitment to the preparation of design guides and/or codes as part of a supplementary planning document, Sport England in partnership with Public Health England, has produced the Active Design guidance (2015) which we would encourage the Council to use as part of the preparation of these documents. The Active Design guidance builds on the original Active Design (2007) objectives of improving Accessibility, enhancing amenity and increasing avareness and sets out the ten Principles of Active Design. Active Design features an innovative set of guidelines to get more people moving through suitable design and layout. It includes a series of case studies setting out practical real-life examples of the principles in action to

encourage planners, urban designers, developers and health professionals to create the right environment to help people get more active, more often. The Active Design Principles are aimed at contributing towards the Government's desire for the planning system to promote healthy communities through good urban design.
