## The Building (Local Authority Charges) Regulations 2010

### Guidance on Building Regulation Charges with effect from 1<sup>st</sup> April 2025

**Full Plans (FP)** - This type of application involves the submission of detailed construction plans, specifications and calculations for approval. The fee is payable on deposit of the application.

**Building Notice (BN)** - This type of application does not involve the submission of detailed plans for approval. It is suitable for small domestic projects but cannot be used where the building is non-domestic. The fee is payable on deposit of the application.

**Regularisation (RG)** - This type of application relates to unauthorised building work which needs to be assessed retrospectively. The fee is payable on deposit of the application and is non-refundable.

**Reversion (REV)** – This type of application must be submitted when an Initial Notice, with a Registered Building Control Approver, has been cancelled or expired and the work must revert to the Local Authority. The fee is assessed on an individual basis and is payable on deposit of the application.

### Standard Charges

These standard charges have been set by the authority on the basis that the building work does not consist of, or include, non-standard construction techniques and the building work is undertaken by a person or company that is competent to carry out the relevant design and building work referred to in the standard charges tables. If they are not competent, the work may incur supplementary charges.

### Individual Determination of a Charge

Charges are individually determined for larger, repetitive and/or more complex schemes including non-standard builds and includes building work that is not listed in the tables below.

If your building work is defined as requiring an individual assessment of a charge you should e-mail Building Control at: [buildingcontrol@wyre.gov.uk](mailto:buildingcontrol@wyre.gov.uk) and provide a full description of the intended work. Alternatively, telephone 01253 887251 to discuss your project with the team.

#### NOTE:

A Part P additional charge will be added when a person who is not a Part P registered electrician carries out notifiable electrical work. A Part P registered electrician is a qualified electrician who is registered under an Approved Competent Persons Scheme.

If anyone other than a part P registered electrician undertakes the electrical work the additional charge is payable in order for the Local Authority to recover its costs.

An additional charge may be incurred if your structural calculations were not done by a Chartered Structural Engineer. If we need to have the calculations checked by a Chartered Structural Engineer we will recover the cost from you.
